7 Tips to improve your Communication Skills

www.TipsByExperts.com

1. Practice speaking. Communication skills are developed through practice. The more you speak, the more confident you will become.
2. Avoid filler words like "um" and "uh". These words make you sound nervous and unsure.
3. Listen actively. Don't just wait for your turn to speak. Listen to what the other person is saying and respond accordingly.
4. Use simple, straightforward language. Avoid using complex words or jargon. Focus on being clear and concise.
5. Maintain eye contact. Look at the person you are speaking to. This shows that you are engaged and interested.
6. Have positive body language. Stand up straight, smile, and use hand gestures to emphasize your points.
7. Be prepared and specific. If you are giving a presentation, research your topic and prepare specific points to discuss.
